

DirectRoute 24.3 (October 2024)

New Features

DirectRoute

- Added volume variables to **Scenario Manager**
(<https://support.appianrouting.com/en/support/solutions/articles/19000160075-scenario-manager/>).

TerritoryPro

- Corrected language in Redistribute pop-up message to include a wider variety of conditions.

Bug Fixes

General

- Fixed an issue where display dimensions in the status bar were not updating correctly after changing data directories.
- Fixed an issue where the max zoom set by the user was not being honored.
- Updated splash screen.

DirectRoute

- Fixed an issue where filtering the map and route book caused the Select column to revert to FALSE after being set to TRUE.
- Priority Routing now opens full screen.
- Fixed an issue where uploading an account master to DRTrack was not updating the file correctly.
- Fixed an issue where the tooltip details for unloaded stops were mismatched with the stop grid details with the same stop.
- Fixed an issue where **Optimize Between Routes**
(<https://support.appianrouting.com/en/support/solutions/articles/19000160718>) was not completed successfully.
- Fixed an issue when downloading the Stop file and Truck file from DRTrack or Territory Manager caused those columns to shift unexpectedly.
- Fixed an issue when downloading the stop file from DRTrack, the Priority value is displaying under the OnFinalize column due to an unexpected column shift.

TerritoryPro

- The ability to edit stop geocoding information has been re-enabled.

TransportationModeler

- Disabled the **No Initialization** Load option in **File> New> Solution**.
- Fixed an issue where the TL algo setting max unique stop locations per TL route was not working as intended.
- Fixed an issue where the TL algo setting max out of route mileage and max out of route mileage % was not working as intended.

Updating to a New Version

If you are interested in updating to this newest release or any other version, contact **Trimble Maps Customer Support** (<https://support.appianrouting.com/en/support/tickets/new>), or call (US toll-free): phone **1-800-663-0626** (Option 2, then Option 8); Monday-Friday, 7am-5pm Central Time.
